

**Oliver's Battery Primary School**

# **Skills Progression and Assessment Document for Geography**

**The purpose of this document is to support the planning and assessment of Geography, ensuring full coverage of the curriculum and opportunities to scaffold and challenge learning.**

# The National Curriculum

## Purpose of Study

A high-quality geography education should inspire in pupils a curiosity and fascination about the world and its people that will remain with them for the rest of their lives. Teaching should equip pupils with knowledge about diverse places, people, resources and natural and human environments, together with a deep understanding of the Earth's key physical and human processes. As pupils progress, their growing knowledge about the world should help them to deepen their understanding of the interaction between physical and human processes, and of the formation and use of landscapes and environments. Geographical knowledge, understanding and skills provide the framework and approaches that explain how the Earth's features at different scales are shaped, interconnected and change over time.

## Aims

The national curriculum for geography aims to ensure that all pupils:

- develop contextual knowledge of the location of globally significant places – both terrestrial and marine – including their defining physical and human characteristics and how these provide a geographical context for understanding the actions of processes
- understand the processes that give rise to key physical and human geographical features of the world, how these are interdependent and how they bring about spatial variation and change over time
- are competent in the geographical skills needed to:
  - collect, analyse and communicate with a range of data gathered through experiences of fieldwork that deepen their understanding of geographical processes
  - interpret a range of sources of geographical information, including maps, diagrams, globes, aerial photographs and Geographical Information Systems (GIS)
  - communicate geographical information in a variety of ways, including through maps, numerical and quantitative skills and writing at length

## Attainment targets

Key Stage 1:

Pupils should develop knowledge about the world, the United Kingdom and their locality. They should understand basic subject-specific vocabulary relating to human and physical geography and begin to use geographical skills, including first-hand observation, to enhance their locational awareness.

Pupils should be taught to:

### **Locational knowledge**

- name and locate the world's seven continents and five oceans
- name, locate and identify characteristics of the four countries and capital cities of the United Kingdom and its surrounding seas

### **Place knowledge**

- understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom, and of a small area in a contrasting non-European country

### **Human and physical geography**

- identify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold areas of the world in relation to the Equator and the North and South Poles
- use basic geographical vocabulary to refer to:
  - key physical features, including: beach, cliff, coast, forest, hill, mountain, sea, ocean, river, soil, valley, vegetation, season and weather
  - key human features, including: city, town, village, factory, farm, house, office, port, harbour and shop

### **Geographical skills and fieldwork**

- use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied at this key stage
- use simple compass directions (North, South, East and West) and locational and directional language [for example, near and far; left and right], to describe the location of features and routes on a map
- use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features; devise a simple map; and use and construct basic symbols in a key
- use simple fieldwork and observational skills to study the geography of their school and its grounds and the key human and physical features of its surrounding environment.

## Key Stage 2:

Pupils should extend their knowledge and understanding beyond the local area to include the United Kingdom and Europe, North and South America. This will include the location and characteristics of a range of the world's most significant human and physical features. They should develop their use of geographical knowledge, understanding and skills to enhance their locational and place knowledge.

Pupils should be taught to:

### **Locational knowledge**

- locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities
- name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains, coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time
- identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night)

### **Place knowledge**

- understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, a region in a European country, and a region in North or South America

### **Human and physical geography**

describe and understand key aspects of:

- physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle
- human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water

### **Geographical skills and fieldwork**

- use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied
- use the 8 points of a compass, 4- and 6-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world
- use fieldwork to observe, measure record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies

## Skills Progression

Learning Objective	Milestone 1 - Year 1 and 2	Milestone 2 - Year 3 and 4	Milestone 3 – Year 5 and 6
To investigate places	<ul style="list-style-type: none"> <li>- Ask and answer geographical questions (such as: what is this place like? What or who will I see in this place?)</li> <li>- Identify the key features of a location in order to say whether it is a city, town, village, coastal or rural area.</li> <li>- Use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied.</li> <li>- Use simple fieldwork and observational skills to study the geography of the school and the key human and physical features.</li> <li>- Name, locate, and identify characteristics of the four countries and capital cities of the United Kingdom and its surrounding seas.</li> <li>- Name and locate the world's continents and oceans.</li> </ul>	<ul style="list-style-type: none"> <li>• Ask and answer geographical questions about the physical and human characteristics of a location.</li> <li>• Explain own views about locations, giving reasons</li> <li>• Use maps, atlases, globes and digital/computer mapping to locate countries and describe the features.</li> <li>• Use fieldwork to observe and record the human and physical features in the local area using a range of methods including sketch maps, plans and graphs and digital technologies.</li> <li>• Use a range of resources to identify the key physical and human features of a location.</li> <li>• Name and locate countries and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, including hills, mountains, cities, rivers, key topographical features and land- use patterns; and understand how some of these aspects have changed over time.</li> <li>• Name and locates the countries of Europe and identify their main physical and human characteristics.</li> </ul>	<ul style="list-style-type: none"> <li>- Collect and analyse statistics and other information in order to draw a clear conclusions about locations.</li> <li>- Identify and describe how the physical features affect the human activity within a location.</li> <li>- Use a range of geographical resources to give detailed descriptions and opinions of the characteristic of a location.</li> <li>- Use different types of fieldwork sampling (random and systematic) to observe, measure and record the human and physical features in the local area. Record the results in a range of ways.</li> <li>- Analyse and give views on the effectiveness of different geographical representations of a location (such as aerial images compared with maps and topological maps – as in London's Tube map).</li> <li>- Name and locate some of the countries and cities of the world and their identifying human and physical characteristics, including hills, mountains, rivers, key topographical features and land-use patterns; and understand how some of these aspects have changed over time.</li> <li>- Name and locate the countries of North and South America and identify their main physical and human characteristics.</li> </ul>

<p>To investigate patterns</p>	<ul style="list-style-type: none"> <li>-</li> <li>- Understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom and a contrasting non-European country.</li> <li>- Identify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold area of the world in relation to the equator and the North and South Poles.</li> <li>- Identify land use around the school.</li> </ul>	<ul style="list-style-type: none"> <li>• Name and locate the Equator, Northern Hemisphere, Southern Hemisphere, The Tropics of Cancer and Capricorn, the Arctic and Antarctic Circles and date and time zones.</li> <li>• Describe some of the characteristics of these geographical areas.</li> <li>• Describe geographical similarities and differences between countries.</li> <li>• Describe how the locality of the school has changes over time.</li> </ul>	<ul style="list-style-type: none"> <li>- Identify and describe the geographical significance of latitude and longitude, equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, the Arctic and Antarctic Circles and time zones (including day and night).</li> <li>- Understand some of the reasons for geographical similarities and differences between countries.</li> <li>- Describe how locations around the world are changing and explain some of the reasons for change.</li> <li>- Describe geographical diversity across the world.</li> <li>- Describe how countries and geographical regions are interconnected and interdependent.</li> </ul>
<p>To communicate geographically</p>	<ul style="list-style-type: none"> <li>- Use basic language vocabulary to refer to: Key physical features, including beach, coast, forest, hill, mountain, ocean, river, soil, valley, vegetation and weather.</li> <li>- Key human features, including: city, town, village, factory, farm, house, office and shop.</li> <li>- Use compass directions (north, south, east and west) and locational language (e.g. near and far) to describe the location of features and routes on a map.</li> <li>- Devise a simple map, and use and construct basic symbols in a key. Use simple grid references. (A1, B1).</li> </ul>	<ul style="list-style-type: none"> <li>• Describe key aspects of: Physical geography, including: rivers, mountains, volcanoes and earthquakes and the water cycle.</li> <li>• Human geography, including: settlements and land use.</li> <li>• Use the eight points of a compass, four-figure grid references, symbols and key to communicate knowledge of the United Kingdom and the wider world.</li> </ul>	<p>Describe and understand key aspects of:</p> <ul style="list-style-type: none"> <li>• Physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle.</li> <li>• Human geography, including: settlements, land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals, and water supplies.</li> <li>• Use of the eight points of a compass, four-figure grid references, symbols and a key (that use standard Ordnance Survey symbols to communicate knowledge of the United Kingdom and the world).</li> <li>• Create maps of location identifying patterns (such as: land use, climate zones, population densities, height of land).</li> </ul>

## Progression of Vocabulary

	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Key Vocabulary		Map, atlas Country, Capital cities, United Kingdom Beach, coast, forest, hill, mountain, ocean, river, soil, valley, vegetation and weather. City, town, village, factory, farm, house, office and shop.					

	Autumn	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Year	Marvellous Me Seasons	One Small Step	Are we nearly there?	How does your garden grow?	Once Upon a Time	Spectacular Sunflowers
R/1	-Identify seasonal and daily weather patterns in the United Kingdom		<ul style="list-style-type: none"> <li>-Ask and answer geographical questions (such as: what is this place like? What or who will I see in this place?)</li> <li>-Identify the key features of a location in order to say whether it is a city, town, village, coastal or rural area.</li> <li>-Use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied.</li> <li>-Use simple fieldwork and observational skills to study the geography of the school and the key human and physical features.</li> <li>-Name, locate, and identify characteristics of the four countries and capital cities of the United Kingdom and its surrounding seas.</li> <li>-Use basic language vocabulary to refer to:               <ul style="list-style-type: none"> <li>-Key physical features, including beach, coast, forest, hill, mountain, ocean, river, soil, valley, vegetation and weather.</li> <li>-Key human features, including: city, town, village, factory, farm, house, office and shop.</li> </ul> </li> <li>-Devise a simple map, and use and construct basic symbols in a key.</li> </ul>			

<b>Year 2</b>	<b>Amazing Me and Other Beasts</b>	<b>My House or Yours?</b>	<b>Fire Fire</b>	<b>Big Wide World</b>	<b>Where are we?</b>	<b>Awesome Artists</b>
				<ul style="list-style-type: none"> <li>- Ask and answer geographical questions (such as: what is this place like? What or who will I see in this place?)</li> <li>- Identify the key features of a location in order to say whether it is a city, town, village, coastal or rural area.</li> <li>- Use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied.</li> <li>- Name, locate, and identify characteristics of the four countries and capital cities of the United Kingdom and its surrounding seas.</li> <li>- Name and locate the world's continents and oceans.</li> </ul>	<ul style="list-style-type: none"> <li>- Use basic language vocabulary to refer to:</li> <li>- Key physical features, including beach, coast, forest, hill, mountain, ocean, river, soil, valley, vegetation and weather.</li> <li>- Key human features, including: city, town, village, factory, farm, house, office and shop.</li> <li>- Use compass directions (north, south, east and west) and locational language (e.g. near and far) to describe the location of features and routes on a map.</li> </ul> <p>Devise a simple map, and use and construct basic symbols in a key. Use simple grid references. (A1, B1).</p>	
<b>Year 3/4</b>	<b>The Dreamer of Dreams</b>	<b>Savage Stone Age</b>	<b>Daring and Dangerous</b>	<b>Friend or Foe?</b>	<b>Magnetic Madness</b>	<b>Sailing the High Seas</b>
		<ul style="list-style-type: none"> <li>• Explain own views about locations, giving reasons</li> <li>• Use maps, atlases, globes and digital/computer mapping to locate countries and describe the features.</li> <li>• Use a range of resources to identify the key physical and</li> </ul>		<p>Identify the key features of physical landscapes</p> <ul style="list-style-type: none"> <li>• Describe some of the characteristics of these geographical areas.</li> <li>• Describe geographical similarities and differences between countries.</li> </ul>		<p>The World and Oceans Physical Features, Human Features</p> <ul style="list-style-type: none"> <li>• Name and locate countries and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, including hills, mountains, cities, rivers, key topographical</li> </ul>

		<p>human features of a location.</p> <ul style="list-style-type: none"> <li>Name and locate countries and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics</li> </ul>				<p>features and land- use patterns; and understand how some of these aspects have changed over time.</p>
Year 5/6	<b>Spooky Scientists</b>		<b>Mystery History</b>		<b>Evolution</b>	<b>Shaping Up</b>
				<p>Physical Features Affecting Human Activity Name and locate countries and cities of the world Equator, hemispheres, tropics</p> <ul style="list-style-type: none"> <li>Name and locate some of the countries and cities of the world and their identifying human and physical characteristics, including hills, mountains, rivers, key topographical features and land-use patterns; and understand how some of these aspects have changed over time.</li> <li>Name and locate the countries of North and South America and identify their main physical and human characteristics.</li> </ul>	<p>Physical Geography Climate Zones Human Geography Settlements Use of the compass</p> <ul style="list-style-type: none"> <li>Physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle.</li> <li>Human geography, including: settlements, land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals, and water supplies.</li> <li>Use of the eight points of a compass, four-figure grid references, symbols and a key (that use standard Ordnance Survey symbols to communicate knowledge of the United Kingdom and the world.</li> </ul>
