

As a primary school, we believe that our vision and values combined with the British values have to be lived consistently in daily school experiences for the children to gain true understanding and to apply the skills they learn. We promote caring and trusting relationships based on trust, respect and tolerance. We celebrate individual success and personal responsibility and we want children to enjoy the result of their efforts in all aspects of learning.

Our vision for all children is that they are creative, caring and confident learners for life.

SMSC is central to learning and the life of our school. Through this, fundamental British values (as defined in the government's prevent strategy) are actively promoted.
