

HEDGEHOGS NEWSLETTER

FRIDAY 15TH MAY

We have had another lovely week in Nursery, with the children busy exploring, learning and developing across both our indoor and outdoor areas. It has been wonderful to see them so engaged in their play, making choices, trying new things and building on their skills. The Nursery has been full of energy and curiosity, with the children making the most of all the opportunities available to them.

This week our theme has been 'families'. We have spent lots of time talking about who is in our families, whether we have any pets, where we live and what we enjoy doing together. The children have loved sharing their own experiences and listening to one another, which has led to some lovely conversations and helped to build a real sense of belonging within the group.

The children have enjoyed using natural objects from in and around Nursery to create pictures of their families. They have also been practising their mark making skills through drawing, painting and colouring their family members. It has been lovely to see how each child has represented their family in their own unique way, with lots of thoughtful details and creativity.

We have begun changing and enhancing our outdoor area to further improve the provision for the children, giving them more opportunities to develop a range of skills both inside and outside the Nursery. These developments will take some time, so please do let us know if you would be interested in helping in any way. The children have had lots of fun exploring the sand and water play, and have really enjoyed trying out some of the new scooters and trikes we have rehomed. It has been wonderful to see them beginning to move in different ways and growing in confidence as they explore the space.

We have also been busy continuing our discussions about growing, taking care of both our sunflowers and our potato. The children have been fantastic at remembering to water the sunflowers and making sure they are placed somewhere they can get plenty of sunlight. It has been lovely to see them take such responsibility and interest in helping our plants grow.

HAVE A LOVELY WEEKEND

SOPHIE AND THE TEAM
